PASSED SENATE FLOOR DEBATE-SENT TO WAYS AND MEANS

SF 2426-SF 570-EMS tax levy

Under Code section 29C.17, a local emergency management agency's approved budget is funded by one or any combination of several funding options, as determined by the local emergency management commission, including a countywide special levy pursuant to Code section 331.424(1) under the county's supplemental property tax levy authority in an amount sufficient to pay for the maintenance and operation of the local emergency management agency. This bill authorizes the local emergency management commission to certify and levy the countywide special levy for the support of the agency at a rate not to exceed \$0.35 per \$1,000 of assessed value and limits the county's authority to certify such a levy if the agency is being funded with the countywide levy under the bill. The bill also limits a city's authority to levy a tax under Code section 384.12(21) to support an emergency management agency if the agency is being funded through the countywide levy under the bill.

The bill also authorizes the local emergency management commission to certify and levy a countywide additional levy not to exceed \$1.00 per \$1,000 of assessed value for special or unique services and operations, as defined in the bill, approved by the commission. The bill also specifies that the local emergency management commission is a municipality for purposes of Code chapter 24 (local budgets).

Code section 29C.9 establishes the composition of each local emergency management commission to be a member of the board of supervisors, the

sheriff, and the mayor from each city within the county. The bill modifies the composition of each commission to be the members of the board of supervisors, the mayor from each city located in whole or in part within the county, and the president of the board of directors of each school district for which the school district's administrative office is located in the county. The bill also specifies that the sheriff shall be a nonvoting member who serves as the commission's chairperson.

The bill specifies that in any action taken by the commission, the members of the board of supervisors shall constitute one voting unit, the mayors of all cities in the county shall constitute one voting unit, and the presidents of the school district boards of directors shall constitute one voting unit. Each voting unit shall have a single vote and no action shall be valid except by the vote of not less than two-thirds of the voting units. The majority vote of the members present of each unit determines the vote of the unit.

The bill also provides that operations of the commission, except for certain budgeting activities, may be undertaken by an executive committee consisting of one member from each of the voting units. Executive committee members are selected by membership of each voting unit. The sheriff serves as president of the executive committee, but is an advisory, non voting member. Under the bill, the executive committee shall have the authority to call a commission meeting at any time and is required to call a commission meeting if either the governor issues a proclamation of a state of disaster emergency in the county or the president of the United States declares a major disaster in the county.

Code chapter 422D authorizes counties to impose a property tax levy, an income surtax, or a combination of both taxes within the county, excluding those areas within a benefited emergency medical services district under Code chapter 357F, to be used for specified emergency medical services costs, if the taxes are approved at election.

The bill adds salaries and benefits of emergency medical care providers, as defined in Code section 147A.1, to the eligible expenditures from the county emergency medical services trust fund under Code section 422D.6.

The bill also provides that if a commission is meeting the financial obligations for implementation of its local emergency management program and operation of the local emergency management agency, the commission may reserve an amount of unobligated and unencumbered funds, excluding amounts reserved or obligated under the capital improvement plan, as required under the bill, for expenditure obligations in a future fiscal year, not to exceed an amount equal to 30 percent of the local emergency management agency's approved budget for

the applicable fiscal year. In addition, the bill allows the commission to reserve an amount not to exceed 5 percent of the annual capital improvement budget for operations expenditure obligations in a future fiscal year. As part of the local emergency management agency's budgeting process, the bill requires the commission to adopt a capital improvement plan that identifies large expenditures or capital improvement projects and the funding sources and financing of such projects. The local emergency management agency's annual budgeting process must also include evaluation of the activities undertaken and the progress made under the capital improvement plan.

The bill applies to budgets for property taxes due and payable in fiscal years beginning on or after July 1, 2024.

COMMITTEE APPROVED BILL- READY FOR FLOOR DEBATE

HF 2661 Public Safety Matters

The bill has three divisions. It increases retirement benefits; it prohibits bail for persons charged with knowingly murdering a police officer and creates a tax credit to help out-of-state law enforcement officers move into the state. The amendment limited the use of the credit, which is expected to have a fiscal impact of about \$50,000. Senator McClintock said that the bill will help deputy sheriffs, who have many duties in their community beyond law enforcement. Senator Todd Taylor said that the bill has been a long time coming and that it shows that Democrats and Republicans can do good work when they work together.

The third section creates a \$2,000 tax credit for moving expenses for a new resident who takes a public safety job. Makes the credit refundable and allows it to be carried forward.

AMENDMENT FILED BY BOUSSELOT:S 5154 - States the maximum tax credit is \$2,000 and is not available to the extent that moving expenses are deducted from federal income. ADOPTED

OSHA SURVEY-PUBLIC COMMENT

ACTION NEEDED: THIS INFO WAS TAKEN FROM THE IOWA FIREFIGHTERS ASSOCIATION FACEBOOK PAGE-PLEASE RESPOND TO THE SURVEY!

The Occupational Safety and Health Administration (OSHA) is proposing an extensive new safety and health standard, titled "Emergency Response," to replace the existing "Fire Brigades Standard." The Notice of Proposed Rulemaking for the "Emergency Response

Standard” was [published in the Federal Register](#) on February 5, with the public comment period open until May 6.

This proposed updated standard would issue hundreds of new requirements that may be very burdensome, and in many cases impossible, for volunteer fire departments to comply with. The National Volunteer Fire Council (NVFC) encourages volunteer departments and associations to [submit comments](#) on this proposed rule and request a public hearing so OSHA can have the best possible understanding of how this proposed rule would impact volunteer departments. We also encourage you to send a letter to OSHA requesting a 90-day extension to the public comment period on this proposed rule.

Additionally, please [fill out this survey](#) to assist the NVFC in collecting department data as we formulate our own comments on the proposed rule.

To assist you in developing your comments and public comment period extension letters, the NVFC has assembled [this comment guide](#). This guide provides guidance on:

- Where to find the text of the proposed standard
- Where and how to submit your comments on the proposed standard
- How to evaluate if your department is covered by the proposed standard
- How to develop your comments
- What part of the proposed standard will impact volunteer departments the most

The NVFC’s comment guide also links you to a map of states with OSHA plans, a template for your comment extension letter, and webinars to further assist you in understanding whether or how the proposed rule would impact your department.

The NVFC recently hosted a Roundtable Talk on this issue, which you can watch [here](#). View some of the questions and answers resulting from the live discussion [here](#).

The NVFC has also put together [this outline of the proposed standard](#) to further highlight important language and provide additional context to the comment guide.

SF 2202 EMERGENCY DISASTER AID

This bill relates to a proclamation of disaster emergency and the disaster aid contingent fund.

The bill provides that when any emergency financial assistance is provided by the federal government, and upon the governor's determination that financial assistance is essential to meet disaster-related necessary expenses or serious needs of local and state government adversely affected by a major disaster or emergency that cannot be otherwise adequately met from other means of assistance, the governor may accept a grant by the federal government and may enter into an agreement with the federal government pledging the state to participate in the funding of the financial assistance in an amount not to exceed 10 percent of the total eligible expenses, with the applicant providing the balance of any participation amount. If financial assistance is granted by the federal government for state disaster or emergency financial assistance-related expenses or serious needs, the state shall participate in the funding of the financial assistance authorized in an amount not to exceed 25 percent of the total eligible expenses.

The bill provides that when any emergency financial assistance is provided by the federal government, the executive council may make financial grants to meet disaster or emergency funding-related necessary expenses, serious needs, or hazard mitigation projects of local governments and eligible private nonprofit agencies adversely affected by the
